ENGINEERED CLEAN

Product Information

ISO Class 5 – 8

Cleanroom Class 100 – 100,000
EU Grade B/C/D
USP <800>

SatPax® 670

Pre-wetted 55% Cellulose / 45% Polyester Nonwoven Cleanroom Wiper

BPR • AUTHORISED • BIOCIDAL PRODUCTS REGULATION

SatPax® 670 combines Durx® 670 nonwoven wipers with a hydroentangled blend of 55% cellulose and 45% polyester. These pre-wetted wipers with 70% USP Grade IPA and 30% DI Water provide a cost-effective and easy-to-use solution, ensuring efficient cleaning compared to traditional bulk handling of solvents, maintenance of squirt bottles, and inconsistent wetting and cleaning associated with saturating a dry wiper. The wipers come packaged in a resealable, solvent-resistant package for easy use.

Berkshire's SatPax® 70/30 IPA biocidal product range is authorised under the EU Biocidal Product Regulation (EU) 528/2012 for sale throughout the EU and EEA.
The products in the range are efficacious against bacteria and yeast, with a contact time of 1 min.

Other Class 5 and above Pre-wetted wipers in the BPR range

- SatPax® 1000
- SatPax® 550

Key Attributes

- 55% cellulose / 45% polyester hydroentangled nonwoven blend
- No chemical binders in base material
- Pre-wetted with consistent 70% USP Grade IPA/ 30% DI Water
- Re-sealable solvent resistant packaging
- Wipers in c-folded configuration for single withdrawal
- 3-year shelf life from date of manufacture

Benefits

- Low extractables and fibre and particle counts
- Smooth and durable with good wet strength
- Reduces alcohol usage and preparation / handling costs
- Reduces VOC emissions
- Increases cleaning efficiency
- Increases cleaning protocol consistency
- Lot traceability

Applications

- Designed for use in ISO Class 5 and higher cleanroom environments and USP <800> applications
- Designed for use in wet cleaning of critical surfaces where control of flammable solvents and flammable solvent concentrations is required
- Final cleaning of surfaces or products prior to manufacturing or packaging
- High saturation level is ideal for removing cleaning and disinfecting residues in regulated environments

Sterile Validated Option

For aseptic processing areas, the same wiper material can be provided in a gamma irradiated validated sterile to a 10^{-6} sterility assurance level.

Efficacy Data

Microorganism	Log Reduction (EN16615)
Staphylococcus aureus	>6.07
Pseudomonas aeruginosa	>5.30
Enterococcus hirae	5.56
Candida albicans	>4.32

Berkshire's SatPax® 70/30 IPA biocidal product range is authorised under the EU Biocidal Product Regulation (EU) 528/2012 for sale throughout the EU and EEA. The products in the range are efficacious against bacteria and yeast, with a contact time of 1 min.

Notes:

- Technical data represented in this table are typical values at the time of publication. These should not be used as product specifications.
- Due to differences in test methods applied and equipment utilised by different wiper manufacturers, valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions
- Third party testing can be performed upon request
